## Core Competencies

The Gaddis Group, LLC is a female and service-disabled veteran owned small business that provides executive governance and oversight support services specializing in the following areas: Program Management, Cyber Operation Planning, and Partner Integration Planning. The goal of The Gaddis Group is to manage a product as it goes through its Life Cycle from Initiation, executing and closing by integrating the people, data, processes and business systems. We focus on identifying our customer primary requirements and coordinating the development with change management processes through sustainment. We use high-level processes for tailoring Project Management Methodologies (PMM)s that organizations can carefully evaluate and use to determine which methodologies will work for its various projects. We develop standardized best practices that can be refined as various factors change to align with the company wide objectives.
